

Agenda for the September 6 meeting, Warrensburg Energy and Sustainability Task Force

1. Approve August 2, 2018, minutes
2. Information about the possible solar project for Warrensburg
3. Initial findings by Joe Hackney concerning the city's energy-saving efforts and energy usage.
4. Update from Beth concerning her intern's search for 'sustainable city' info
5. Discussion (and possible adoption) of the following statement of purpose:
The Warrensburg Energy and Sustainability Task Force shall suggest and encourage energy efficiency, conservation, and renewable energy solutions to the city of Warrensburg. In addition, the task force shall educate community members through civic engagement and collaboration in an effort to create a sustainable and prosperous community for current and future generations.
6. Brainstorming energy-saving and sustainability ideas and/or policies that the city of Warrensburg might implement/adopt.
