

Attendees:

Jeremiah Robison, Beth Rutt, Terry Vair, Phil Adlich, Kathy Strickland

Discussion:

Phil Aldich: Phase 1 for the water treatment facility is almost complete which will result in a more energy efficient facility. Additionally, Fire Station 2 just had newer roofing material installed which is more efficient.

UCM Earth Week events start on April 18th and run until Friday. CEA will be hosting Earth Day at the farm on Saturday the 23rd.

Questions were raised about the city code enforcement department conducting a survey concerning trash service. The task force discussed the multi-year process to rectify the trash issues.

Stormwater and Rainwater:

The committee is currently writing articles they want to get published in the daily star and on the city website. They plan to discuss stormwater volume and the effects on the city infrastructure. Projected timeline for completion is May or June.

Beth Rutt submitted a sustainability master plan to Danielle.

Beth asked the committee to consider what steps we can take to increase recruitment to the task force.

The next meeting will be on May 5th at 9am at the wastewater treatment facility. 75 NW 50 Highway.
